REMARKS

SOURCE 25X1A

1. It was observed that an improvised airfield had been constructed about 3,300 feet northeast of BURG (N 58° W 11). The field is about 1,300 x 1,600 feet (location see Annex). There are no buildings or technical installations. Four aircraft of the type "PO-2" marked with the figures "2, 8, 9, and 11" landed at the field and shortly took off again.

25X1A

2. PO-2s with the figures "5, 6, and 8" made an intermediate landing. The jeep E 2-52-02 was observed at the field.
3. According to local residents, large Soviet troop units are stationed in a woods south of the airfield.

25X1A

Comment: It is assumed that the improvised airfield was constructed for maneuvers which were held in the area.

25X1A

Comment: This is the first information on the existence of a new improvised airfield northeast of BURG. The report is considered credible since aircraft were landing at the BURG area in connection with the maneuvers held in the ALLENHARBOU area.

1 Annex: Improvised Airfield Near BURG, Soviet Zone of Germany.
